Section B2 – Description of the replacement land

11. Name of replacement land (if any)

Area of proposed replacement land (in m²) 75 sq. metres

Description (including location) of the replacement land.

The land is currently part of Darcote garden and runs adjacent to the registered village green currently behind a fence. The land includes trees and bushes that would become registered village green. The fence would be relocated providing open space additional to the village green. It would ensure the maintenance of those trees and bushes forming the character of that part of the village green.

12. Please confirm that the proposed replacement land is not already registered as common land or town or village green. I confirm
